Gate OPENING SYSTEMS

G-ULTRA GSM
COMPLETE 3G GSM-BASED REMOTE GATE CONTROL

THE ULTIMATE MOBILE PHONE GATE ACCESS CONTROL AND MONITORING SYSTEM

- Remotely Open/Close Gates by mobile/app
- Receive Notifications of Gate Access
- View Gate Status from Mobile Device
- Update Gate Access Remotely

FEATURES AND BENEFITS

-SECURITY: Password protection with easy to use interface to enable/disable users

-CONVENIENCE: Set up schedules to automatically activate gate automation systems

-TIMED ACCESS CONTROL: Set weekly recurring time periods for access, or set time barring windows

-MONITORING AND ALERTING: Receive notifications when gates are opened or closed

-INTELLIGENT MONITORING: Be advised of gates being opened or closed

-MONITORING AND ALERTING: Can control multiple gates, depending on the amount of input/output selected

-EASY ACCESS TO DIAGNOSTICS: Intelligent feedback via graphic user interface and diagnostic messages

-ACCESS CONTROL FOR BIG EVENTS: Temporarily allow access to anyone in possession of the module's mobile number

-MEMORY: The G-ULTRA can remember and communicate with 1500 different users!

-BATTERY MONITORING: Receive an SMS if the voltage falls too low and the unit will automatically conserve battery life

-SMART HARDWARE: Reliable signal strength with internal GSM antenna

-PERSONALISATION: Personalise SMS input notifications and alerts

OPEN THE GATE VIA THE APP OR BY CALLING THE GATE FROM ANYWHERE IN THE WORLD!
G-SPEAK INTERCOM ALSO AVAILABLE– CALL GATE OPENING SYSTEMS FOR MORE INFORMATION
